

## Maintenance

### Compliance work:

All our used equipment is checked and brought up to safety standards in accordance with currently applicable European Union. Technical acceptance testing takes place on our premises for all sales of used equipment, a certificate is issued to the client following acceptance.

### Maintenance-Rebuilds:

With the help of our two partners SUD MO and EUSIMETALL, we can offer automation solutions for your production alternatives to replacing your machines, such as the rebuilding and retrofitting of conventional machines to give

new lease of life.
